

2. Problem?

Use a coloured pencil to underline the markings you have used for writing a dialogue.

Can you write rules for marking a dialogue in a text? What rules could you make looking at your text?

Did you find problems when you were thinking about the rules?

How could you study marking a dialogue if you can't use a study book?

My suggestions are

- 1.

- 2.

- 3.

Studying by myself

Put a cross if you did the task
